

Request for Proposals (RFP)

For evaluation and development of a regional health insurance collaborative for municipal employees in participating groups in the Western Connecticut Planning Region.

Announcement

The Western Connecticut Council of Governments (“WestCOG”), an association of 18 cities and towns in Western Connecticut (the “Western Connecticut Planning Region”) is interested in evaluating the potential for cost savings through the creation of a regional/interlocal health insurance collaborative (the “Collaborative”), as enabled by Connecticut Public Act 10-174, which allows municipalities and boards of education to join together to purchase employee health insurance.

WestCOG is seeking proposals from qualified, licensed Insurance Brokerages and/or Agents (hereafter “Proposer”) for the purpose of providing professional insurance, brokerage, and consulting services for an employee benefits plan. The Proposer must have a strong knowledge base and experience with health insurance collaborations and/or associations. A proven track record with at least 3-5 years of successful experience within health insurance collaborations and/or associations will be required. Please include references. The Proposer will be responsible for the outlined “Project description” below for each employer group alongside a potential future Plan Administrator.

Scope of services

At minimum, the selected Proposer will be expected to provide the services enumerated below. Proposers may propose and explain modifications to the structure, order, or content of the scope of services, provided justification is given. However, WestCOG is not bound to accept any such changes. Furthermore, WestCOG may adjust or amend the project at its own discretion for any reason.

1. Identify groups interested in participating in a Collaborative, collect relevant information on existing insurance arrangements. These include but may not be limited to past, present, and expected future data on benefits, costs, membership, service levels, and contractual obligations.
2. Propose, review, analyze, and evaluate models for a Collaborative. These should include consideration of successful and, as applicable, unsuccessful models in use in Connecticut (e.g., ECHIP, CREC, The Connecticut Partnership Plan) as well as models, practices, and options from other, comparable locations.

The review, analysis, and evaluation should be comprehensive and should provide all necessary information to enable fully informed decisions on the part of interested groups

about the viability and value proposition of establishing a Collaborative and, furthermore, about the benefits, costs, opportunities, risks, and prognosis to them individually and jointly for joining and participating in a Collaborative.

3. Work with interested groups to establish governance for a Collaborative, including development, execution, and management of the processes to establish the Collaborative and for it to begin operations, enroll members, and become self-sustaining.

Application process

How will the analysis be conducted, and how will success be measured?) Timing, duration, and cost should be specified for each task in the scope of work.
3. Work history. Examples of similar or relevant work conducted by proposer in the past, with information on project outcomes and client references. Name, title, employer, relationship to the project, telephone number, and e-mail address should be given for each reference.
4. Statement of qualifications. Directory of, task assignments, and resumes for key staff on project. Professional licenses and certifications should be included. The total hours each staff person is expected to spend on each task should be documented.

7. A listing of known complaints regarding the proposer from the last ten years that filed with the State Insurance Commissioner's Office, including the nature of the complaint and disposition.
8. A completed Organizational Conflict of Interest Statement that either warrants that there are no relevant facts or circumstances that could give rise to organizational conflicts of interest, and/or, as applicable, gives a full, written disclosure of any organizational conflicts of interests, including description of the action(s) the proposer has taken or will take to avoid or mitigate such conflict.

The Narrative may not exceed 5,000 words. Other components have no word limit.
