

REQUEST FOR QUALIFICATIONS

Route 1 (Connecticut Avenue & Van Buren Avenue)  
Corridor Master Plan Study Questions and Answers

06/22/2023: For the CTDOT prequalification requirement, please clarify if the prime contractor needs to be prequalified for both Highway Design and Traffic and Safety Engineering, or if a subconsultant can satisfy one or both requirements?

Response: The prime contractor must be prequalified in either Highway Design or Traffic and Safety Engineering but is not required to be prequalified in both categories. Subconsultants are not required to be prequalified.
