

WestCOG Technical Advisory Group (TAG)

Tuesday, February 10, 2026 at 11:00 am

Zoom Link: <https://us02web.zoom.us/j/89531093509>

Meeting ID: 895 3109 3509

Agenda

1) **MEETING CALL TO ORDER**

- a. WestCOG Transportation Director Kristin Hadjstylianos

2) **PUBLIC PARTICIPATION** *limited to topics on this agenda and to 2 minutes per speaker.*

3) **INFORMATIONAL ITEMS**

- a. 2026 Active Transportation Microgrants ProgramAttachment 3a, p.1
- b. 2027-2055 Metropolitan Transportation Plan Project Solicitation
- c. Transportation Funding Programs.....Attachment 3c, pp. 2-4
- d. Transit Safety Performance Targets.....Attachment 3d, pp. 5-10
- e. ADA Transition Plan Assistance Project
- f. Traffic Calming and Complete Streets Best Practices Toolbox

4) **ACTION ITEMS**

- a. Approval of the January 2026 meeting minutes.....Attachment 4a, pp. 11-13
- b. FY25-FY28 Transportation Improvement Program.....Attachment 4b, pp. 14-17
 - i. SWRMPO - #0173-0560, Various; #0499-2024BS, Various
 - ii. HVMPO - #0096-0212, Newtown; #0499-2024UR, Various
- c. New LOTCIP Projects.....Attachment 4c, p. 18
- d. LOTCIP Adjustments.....Attachment 4d, pp. 19-21

5) **OTHER BUSINESS**

6) **UPCOMING MEETINGS**

- a. MPO/COG Thursday, February 19th, 2026 @ 12:00 p.m.
- b. TAG Meeting Tuesday, March 10th, 2026 @ 11:00 a.m.

7) **ADJOURNMENT**

ENGLISH: For language assistance or other accommodations, contact Western Connecticut Council of Governments at least five business days prior to the meeting at help@westcog.org. ESPAÑOL: Para asistencia con el idioma y otras adaptaciones, por favor póngase en contacto con WestCOG por lo menos cinco días hábiles antes de la reunión al help@westcog.org. PORTUGUÊS: Para obter assistência língua ou outras acomodações, entre em contato com WestCOG pelo menos cinco dias úteis antes da reunião em help@westcog.org.

Western Connecticut

COUNCIL OF GOVERNMENTS

TO: TAG Representatives
 FROM: Kristin Floberg, Senior Planner
 DATE: February 2, 2026
 RE: 2026 CTDOT's Active Transportation Microgrant Program

Background

The Connecticut Department of Transportation, in coordination with the Councils of Governments, provide grants for non-infrastructure projects up to \$5,000 that support walking, biking, and rolling in Connecticut. The goal of the Active Transportation Microgrant Program is to provide equitable, safe, accessible, and sustainable access to transportation by making conditions safer for people of all ages to walk, bike and roll, thereby encouraging more people to use these healthy and environmentally sustainable modes of travel. The program is contingent upon available funding and applications will be accepted on a quarterly basis. The program does not require a match from the eligible entity.

Eligible Entities:

- Public or Private Schools (K-12)
- School Districts
- Municipalities
- Health Districts
- Non-Profit Organizations (501c3)

Eligible Activities:

- Bicycle Helmets
- Bicycle Locks
- Bicycle Lights
- Bicycle Maintenance Training and Materials (non- infrastructure only)
- Rental of Bicycle Fleets and/or Purchase of Bicycles Including Adaptive Bicycles
- League Cycling Instructor Training (LCI)
- Materials for Pedestrian and Bicycle Safety Education
- Safety Vests or high visibility attire/gear
- Scooters (non- e-assist)
- Bicycle and Scooter Racks (rack only)
- Bike Repair Kits or Stations (not including cost of construction or installation of kit)
- Reflective Stickers, Cones, Bike Wheel Spoke Reflectors

Next steps

Please share with any eligible entities who may be interested. Complete applications are to be sent to Kristin Floberg at kfloberg@westcog.org by the following deadlines:

- Quarter 1: March 13, 2026
- Quarter 2: June 12, 2026
- Quarter 3: September 11, 2026
- Quarter 4: December 4, 2026

2026 Program guidelines and blank applications can be found on CTDOT's Safe Routes to School Program [webpage](#).

Transportation Funding

Metropolitan Planning Organizations (MPOs) play a critical role in directing federal transportation funds toward projects that improve mobility, safety, environmental sustainability, and quality of life within urbanized areas. Key funding sources include the Congestion Mitigation and Air Quality Improvement (CMAQ) Program, the Transportation Alternatives Program (TAP), and the Carbon Reduction Program (CRP). Together, these programs support strategic investments that advance federal, state, and regional transportation goals.

Congestion Mitigation and Air Quality Improvement (CMAQ)

Overview: The CMAQ Program focuses on projects that reduce traffic congestion and improve air quality in areas that do not meet, or are at risk of not meeting, National Ambient Air Quality Standards. Eligible investments commonly include transit enhancements, traffic flow improvements, bicycle and pedestrian facilities, and programs that reduce vehicle emissions. MPOs prioritize CMAQ funds to ensure projects deliver measurable emissions reductions while supporting efficient system performance.

Eligible projects: The core goal of the CMAQ program is to reduce mobile on-road emissions to help attain or maintain a National Ambient Air Quality Standard (NAAQS). The following categories of projects have been found to be potentially beneficial and therefore are eligible for CMAQ funding:

- Diesel Engine Retrofits & Other Advanced Truck Technologies
- Transportation Control Measures (TCMs)
- Extreme Low-Temperature Cold Start Programs
- Transit Improvements
- Transportation Management Associations
- Carpooling and Vanpooling
- Carsharing
- Training
- Congestion Reduction & Traffic Flow Improvements
- Travel Demand Management
- Pedestrian and Bicycle Facilities and Programs
- Public Education and Outreach Activities
- Freight/Intermodal
- Idle Reduction
- Inspection/Maintenance (I&M) Programs
- Innovative Projects
- Alternative fuel and vehicles

Carbon Reduction Program (CRP)

Overview: CRP is designed to reduce transportation-related greenhouse gas emissions through strategic investments in planning, infrastructure, and operational improvements. In addition to funding eligible projects, the Carbon Reduction Program requires each state to coordinate with municipal planning organizations (MPOs) to develop a carbon reduction strategy (CRS). The CRS will identify projects and strategies that will reduce transportation emissions. CTDOT published the Carbon Reduction Strategy in 2023 which can be viewed here: [ctdot-carbon-reduction-strategy-2023.pdf](#).

Eligible projects: Funding through the Carbon Reduction Program covers many different activities. Example projects and programs include:

- On- and off-road trail facilities for pedestrians and bicyclists.
- Shared micromobility and electric bike infrastructure.
- Public transportation investments, such as construction or improvement of bus rapid transit (BRT) corridors and dedicated bus lanes.
- Deployment of zero-emission vehicles
- Electric vehicle (EV) charging infrastructure
- Port electrification systems
- Traffic monitoring, management, and control systems
- Advanced transportation and congestion management technologies
- Diesel engine retrofits and replacements
- Traffic signal upgrades and energy-efficient street lighting

Transportation Alternatives Set-Aside Program (TAP)

Overview: TAP provides funding for smaller-scale, community-oriented projects that expand transportation choice and enhance local connectivity. TAP supports bicycle and pedestrian infrastructure, Safe Routes to School initiatives, trails, and other projects that improve non-motorized access and livability. MPOs play a central role in soliciting, evaluating, and selecting TAP projects in urbanized areas, ensuring alignment with regional transportation plans.

Eligible projects:

- Construction, planning and design of on-road and off-road trail facilities for pedestrians, bicyclists, and other nonmotorized forms of transportation.

- Construction, planning, and design of infrastructure-related projects and systems that will provide safe routes for non-drivers, including children, older adults, and individuals with disabilities to access daily needs.
- Conversion and use of abandoned railroad corridors for trails for pedestrians, bicyclists, or other nonmotorized transportation users.
- Construction of turnouts, overlooks and viewing areas.
- Community improvements activities including:
- Inventory, control, or removal of outdoor advertising;
- Historic preservation and rehabilitation of historic transportation facilities;
- Planning, designing, or constructing boulevards and other roadways largely in the right-of-way of former Interstate System routes or other divided highways.

Next Steps

WestCOG will advise MPO and TAG members when project solicitations for these programs become available. In the meantime, municipalities should consider projects that may be good candidates for funding. While these programs have different goals and requirements, projects that demonstrate clear regional benefits are likely to be stronger candidates. WestCOG staff are happy to meet with MPO and TAG members to discuss ideas for future transportation projects and what funding sources are a good fit.

Western Connecticut

COUNCIL OF GOVERNMENTS

TO: TAG members
FROM: Todd Fontanella
DATE: February 3, 2026

RE: **Transit Safety Performance Measures**

Action Requested: review of updated HVMPO and SWRMPO transit safety performance targets.

Background: The Public Transportation Agency Safety Plan (PTASP) regulation, at 49 C.F.R. Part 673, requires covered public transportation providers, State Departments of Transportation (DOT) and MPOs to establish transit safety performance targets to address Safety Performance Measures (SPMs) identified in the National Public Transportation Safety Plan (49 C.F.R. § 673.11(a)(3)). A safety performance measure is a quantifiable indicator of performance or condition that is used to establish targets related to safety management activities, and to assess progress toward meeting the established targets. Transit providers may also choose to establish additional targets for the purpose of safety performance monitoring and measurement.¹

In 2020, transit authorities and regional transit authorities were required to establish a total of seven targets pertaining to the following four safety performance management measures:

- Fatalities: Total number of fatalities reported to the National Transit Database and rate per total Vehicle Revenue Miles (VRM) by mode.
- Injuries: Total number of injuries reported to the National Transit Database and rate per total VRM by mode.
- Safety Events: Total number of safety events reported to the National Transit Database and rate per total VRM by mode.
- System Reliability: Mean distance between major mechanical failures by mode.

On April 9, 2024, FTA published an updated version of the National Public Transportation Agency Safety Plan (NPTASP). This update included a list of seven additional safety measures required in the Bipartisan Infrastructure Law (BIL). Figure 1 on the next page provides the complete list of measures as of 2026.

¹ [Safety Performance Targets Guide | FTA \(dot.gov\)](https://www.fta.dot.gov/safety-performance-targets-guide)

Figure 1

Safety Performance Measures for All Agencies Subject to PTASP Regulation ⁸		
1	Measure 1a:	Major Events
2	Measure 1b:	Major Event Rate
3	Measure 1.1:	Collision Rate (new)
4	Measure 1.1.1:	Pedestrian Collision Rate (new)
5	Measure 1.1.2:	Vehicular Collision Rate (new)
6	Measure 2a:	Fatalities
7	Measure 2b:	Fatality Rate
8	Measure 2.1:	Transit Worker Fatality Rate (new)
9	Measure 3a:	Injuries
10	Measure 3b:	Injury Rate
11	Measure 3.1:	Transit Worker Injury Rate (new)
12	Measure 4a:	Assaults on Transit Workers (new)
13	Measure 4b:	Rate of Assaults on Transit Workers (new)
14	Measure 5:	System Reliability

Role of MPOs in Establishing Transit Performance Measures: It is each MPO's responsibility to endorse regional transit targets in consultation with the transit operators in its region. For the HVMPO region, WestCOG staff consulted with HARtransit. For the SWRMPO region, staff consulted with both CTDOT (on behalf of CTtransit) and the Norwalk Transit District (NTD). Note that CTDOT/CTtransit and NTD each submitted individual targets. Several years ago, CTtransit provided safety performance targets for services operated from Stamford Garage; for this update, targets provided by CTDOT in its PTASP are for all Divisions. Taken together, the Safety Performance Targets adopted by the transit agencies are intended to guide each MPO's development of transit performance targets (23 CFR § [450.306\(d\)\(3\)](#) of the [FTA/FHWA joint planning rule](#)); each MPO can choose to adopt a transit authority's targets or set its own.

Timeline for MPOs to Establish Transit Performance Targets: the MPOs must adopt the latest safety targets no more than one hundred eighty (180) days after receipt of Public Transit Agency Safety Plans from their public transportation providers.

- CTDOT transmitted the updated CTtransit PTASP to the MPOs on September 8, 2025.
- HARtransit's Board approved an updated PTASP, effective January 15, 2026.
- NTD provided an updated PTASP to the SWRMPO on September 18, 2025.

Action: for this meeting, the staff is asking the HVMPO and SWRMPO members to review the following:

- 1) The HVMPO, to review Table 1: Public Transit Agency Safety Performance Targets, which were formally adopted by HARTransit as part of their Transit Agency Safety Plan on September 16, 2020 and carried forward – and, Table 2 with the updated targets:

Table 1: HVMPO Safety Performance Targets – HARTransit (2023)							
Mode of Transit Service	Fatalities		Injuries		Safety Events		System Reliability – Mean Distance Between Failures
	Total	Per 100,000 VRM	Total	Per 100,000 VRM	Total	Per 100,000 VRM	VRM/Mechanical Failures
MB	0	0	7	.6	5	.5	25,800
DR	0	0	3	.6	3	.6	10,775

MB = Motorbus, e.g. fixed-route service

DR = Demand Response, e.g. paratransit services

Table 2: HVMPO Safety Performance Targets – HARTransit (2026)		
	Motorbus (MB)	Demand Response (DR)
Major Events	4	2
Major Event Rate	0.4	0.4
Collisions+	14	10
Collision Rate*	1.47	2.94
Pedestrian Collision Rate*	0	0
Vehicular Collision Rate*	1.41	2.1
Fatalities	0	0
Fatalities Rate	0	0
Fatalities Transit Worker*	0	0
Injuries	5	2
Injury Rate	0.5	0.4
Transit Worker Injury Rate*	0.3	0.2
Assault on Transit Worker*	20	30
Assault on Transit Worker Rate*	0.1	0.2
System Reliability (MDBF)	25,800	25,000

*New, NPTASP (2024)

+ Tracked by HARTransit in PTASP; not officially included in federal requirements

Note: rates are per 100,000 Vehicle Revenue Miles (VRM)

- 2) The SWRMPO, to review Table 3, which were the previous Public Transit Agency Safety Performance Targets covering CTtransit and Norwalk Transit District operations, and Tables 4-6 which are the new targets separated by operator:

Table 3: SWRMPO Safety Performance Targets – CTtransit Stamford Division (2023)							
Mode of Transit Service	Fatalities		Injuries		Safety Events		System Reliability – Mean Distance Between Failures
	Total	Per 100,000 VRM	Total	Per 100,000 VRM	Total	Per 100,000 VRM	VRM/Mechanical Failures
MB	0	0	12	0.8	45	3.0	22,044

MB = Motorbus, e.g. fixed-route service

Table 4: SWRMPO Safety Performance Targets – CTtransit (Hartford, New Haven, Stamford Divisions – 2025)	
	Motorbus (MB)
Major Events	64
Major Event Rate	.433
Collision Rate*	4.6
Pedestrian Collision Rate*	.051
Vehicular Collision Rate*	2.92
Fatalities	0
Fatalities Rate	0
Fatalities Transit Worker*	0
Injuries	73
Injury Rate	.50
Transit Worker Injury Rate*	.297
Assault on Transit Worker*	31
Assault on Transit Worker Rate*	.21
System Reliability (MDBF)	37,102

*New, NPTASP (2024)

Note: rates are per 100,000 Vehicle Revenue Miles (VRM)

Table 5: SWRMPO Safety Performance Targets – Norwalk Transit District (2023)							
Mode of Transit Service	Fatalities		Injuries		Safety Events		System Reliability – Mean Distance Between Failures
	Total	Per 100,000 VRM	Total	Per 100,000 VRM	Total	Per 100,000 VRM	VRM/Mechanical Failures
MB	0	0	12	0.8	45	3.0	22,044
DR-DO	0	0	N/A	0.75	N/A	0.2	125,000
DR-PT	0	0	0	0	N/A	0.3	55,000

MB = Motorbus

DR-DO = Demand Response, Directly Operated e.g. paratransit services

DR-PT = Demand Response, Purchased Transportation

Table 6: SWRMPO Safety Performance Targets – Norwalk Transit District (2026)			
	Motorbus (MB)	Demand Response (DR)- Directly Operated	Demand Response (DR) – Purchased Transportation
Major Events	5	0	0
Major Event Rate	0.64	0	0
Collision Rate*	3.5	2	0.75
Pedestrian Collision Rate*	0	0	0
Vehicular Collision Rate*	3.5	2	.75
Fatalities	0	0	0
Fatalities Rate	0	0	0
Fatalities Transit Worker*	0	0	0
Injuries	8	0	0
Injury Rate	1	0	0
Transit Worker Injury Rate*	0.1	0.5	0
Assault on Transit Worker*	0	0	0
Assault on Transit Worker Rate*	0	0	0
System Reliability (MDBF)	20,000	20,000	20,000

*New, NPTASP (2024)

Note: rates are per 100,000 Vehicle Revenue Miles (VRM)

Next Steps:

- 1) A memorandum will be shared as an informational item on this topic with the MPOs at their February meeting. The TAG will then be asked to recommend adoption of targets to HVMPO and SWRMPO in March. Each MPO will then be asked to sign a resolution documenting endorsement of the targets at their March meetings.
- 2) The HVMPO and SWRMPO are both required to reference Safety Performance Targets in their Transportation Improvement Programs and Metropolitan (Long-Range) Transportation Plans updated or amended after July 20, 2021. Accordingly, the WestCOG staff is preparing to accomplish this in the upcoming TIP and MTP development cycles.
- 3) The MPOs staff will review performance trends using data provided by the transit operators in upcoming documents, i.e. MTP as required.

Please let us know if you have any questions.

| • Bethel | Absent |
| • Bridgewater | Absent |
| • Brookfield | Community Development Specialist Greg Dembowski |
| • Danbury | Absent |
| • Darien | Director of Planning and Zoning Jeremy Ginsberg |
| • Greenwich | Chief Engineer Gabriella Circosta-Cohee |
| • New Canaan | Town Engineer Maria Coplit |
| • New Fairfield | Absent |
| • New Milford | Director of Public Works Jack Healy |
| • Newtown | Absent |
| • Norwalk | Dir. of Transportation, Mobility and Parking Jim Travers |
| • Redding | Absent |
| • Ridgefield | Absent |
| • Sherman | Public Works Supervisor Kris Fazzone |
| • Stamford | Transportation Planner Luke Bittenwieser |
| • Weston | Absent |
| • Westport | Deputy Town Engineer Matthew Niski |
| • Wilton | Director of Public Works/Town Engineer Frank Smeriglio |
| • Transit Representative SWR | NTD Director of Service Planning Rick Schreiner |
| • Transit Representative HV | HARTransit CEO Bob Yastremski |

Others Attending: Stamford Traffic Engineer Jianhong Wang, and Norwalk Transit District Data and Planning Analyst Besim Krasniqi.

WestCOG Staff Members: Kristin Hadjstylianos, Kevin Mahoney, Amal Malik, and Cricket Carpenter.

MEETING CALL TO ORDER: WestCOG Transportation Director Kristin Hadjstylianos called the meeting to order at 11:04 a.m.

PUBLIC PARTICIPATION

No member of the public spoke when asked to do so.

INFORMATIONAL ITEMS

LOTICIP Proposals – Staff Recommendations

WestCOG Program Director Kevin Mahoney provided an overview.

ACTION ITEMS

Approval of the December 2025 meeting minutes

After review and on a motion made by New Milford Director of Public Works Jack Healy and seconded by Brookfield Community Development Specialist Greg Dembowski the minutes of the December 2025 meeting were unanimously approved.

2026 TAG Meeting Schedule Change

WestCOG Transportation Director Kristin Hadjstylianos provided an overview. After review and on a motion made by New Milford Director of Public Works Jack Healy and seconded by New Canaan Town Engineer Maria Coplit the 2026 TAG Meeting Schedule Change was unanimously approved.

FY25-FY28 Transportation Improvement Program

SWRMPO – #0173-0560, Various. HVMPO – #0096-0212, Newtown; 0170-3795.

WestCOG Associate Planner Amal Malik provided an overview. After review and on a motion made by New Canaan Town Engineer Maria Coplit and seconded by New Milford Director of Public Works Jack Healy the FY25-FY28 Transportation Improvement Program Amendments were unanimously approved.

LOTICIP Adjustments

WestCOG Program Director Kevin Mahoney provided an overview. After review and on a motion made by Brookfield Community Development Specialist Greg Dembowski and seconded by Norwalk Dir. of Transportation, Mobility and Parking Jim Travers the LOTICIP Adjustments were unanimously approved.

OTHER BUSINESS

UPCOMING MEETINGS

MPO/COG/Legislative Reception – Thursday, January 29th 2026 @ 12:00, Lunch @ 11:30

TAG Meeting Tuesday, February 10th, 2026

ADJOURNMENT: On a motion duly made, the meeting was unanimously adjourned at 11:31 a.m.

INTERIM MINUTES SUBJECT TO FINAL APPROVAL BY THE TAG MEMBERS

Western Connecticut

COUNCIL OF GOVERNMENTS

TO: MPO Members
DATE: February 2, 2026
SUBJECT: Amendments to the 2025-2028 Transportation Improvement Program

SWRMPO FFY 2025-2028 Transportation Improvement Program (TIP)

Background: The FFY2025-2028 South Western Region MPO TIP was endorsed by the MPO on April 18, 2024. The TIP was incorporated into the larger Statewide TIP, which was approved by USDOT and EPA on August 5, 2024.

The following projects have proposed amendments:

1. 0173-0560 – Replace Traffic Control Signals at Various Locations
2. 0499-2024BS – Sec 5310 Program-Enhanced Mobility of Seniors/Individuals w/ Disabilities-Bridgeport/Stamford FY24

Details of these amendments can be viewed on the following pages.

Action Requested: MPO endorsement after review and support by TAG.

HVMPO FFY 2025-2028 Transportation Improvement Program (TIP)

Background: The FFY2025-2028 Housatonic Valley Region MPO TIP was endorsed by the MPO on April 18, 2024. The TIP was incorporated into the larger Statewide TIP, which was approved by USDOT and EPA on August 5, 2024.

The following projects have proposed amendments:

1. 0499-2024UR – Sec 5310 Program-Enhanced Mobility of Seniors/Individuals w/ Disabilities/Other Urban FY24

Details of these amendments can be viewed on the following pages.

Action Requested: MPO endorsement after review and support by TAG.
