 RE: **Section 5310 Grant Program Solicitation**

**Overview:** The Connecticut Department of Transportation (CTDOT) has advised WestCOG of the release of the latest (FY 2025) Section 5310 Grant Program.

The Section 5310 Program is intended to improve mobility for seniors and individuals with disabilities by removing barriers to transportation services and expanding transportation mobility options. It supports transportation services planned designed and carried out to meet the special transportation needs of seniors and individuals with disabilities in all areas of Connecticut-large urbanized (over 200,000); small urbanized (50,000-200,000), and rural (under 50,000).

Eligible Recipients include private nonprofit organizations, states or local government authorities, or operators of public transportation. Taxi companies may participate in the Section 5310 program as contractors and may apply through a coordinating entity.

Traditional Capital (vehicles), Nontraditional Capital (equipment or accessible taxis) and Operating (expenses, voucher programs, mobility management, etc.) applications will be accepted in this round. CTDOT will fund Traditional vehicles at 80% federal share and will attempt to fund Nontraditional Capital projects at 80% or Operating projects at 50% or 80% federal share, according to category in [CTDOT's FFY 2025 Grant Application Instructions](#).
